

ADVANTAGES

- Optional prefilter and fan sections
- Safe and easy routine maintenance access
- Predicted removal efficiency and lifetime by Camfil's proprietary software
- Contact time range of 1 second
- Wide range of air flows from 14000 to 105,000 m³/h
- Highly reliable performance

Frame	Stainless steel;Steel, painted
Media	Activated Carbon;Impregnated Activated Carbon;Impregnated Activated Alumina
Max Temperature (°C)	90
Min Temperature (°C)	-21
